

## SAFETY PAGES

### E-safety

To protect our children it is essential that young people and parents/carers understand how to reduce these risks.

The 'Click Clever Click Safe' code is a list of three simple things to remember when you're online:

### Advice for children

If you don't feel you can talk to your parents about something encountered online, then speak to a teacher, adult relative or a friend's parent. Or call free to Childline on 0800 1111.

Never meet anyone you only know in the online world. Just because they say they are a child or teenager, it doesn't mean they are.

Don't be afraid to report someone who upsets you online. See [www.ceop.police.uk](http://www.ceop.police.uk) for more advice.

- Always ask permission before using the Internet.
- Only send e-mails to your friends.
- Only go to Internet sites that you know are safe.
- Be careful what you type into a search engine.
- Never tell anyone your name, address or telephone number over the Internet.
- Always tell your parents or teacher if you are upset by something you see on the Internet.

## Road Safety

### The Green Cross Code

- 1 First find the safest place to cross.
- 2 Stop just before you get to the kerb.
- 3 Look all around for traffic and listen.
- 4 If traffic is coming, let it pass.
- 5 When it is safe, go straight across the road - do not run.
6. Arrive safely.

## Fire Safety

Did you know?

- Over 400 children under the age of 11 are injured and 4 are killed in accidental fires in the home in England every year.

This leaflet has been put together for parents and anyone looking after children, including childminders. The advice and tips provided here supplement our main Fire Safety in the Home leaflet.
