POTIONS

This half term, our topic base is SCIENTIFIC, and we will be learning all about Solids, Liquids and Gases. We will be looking at how the water cycle works and goes round and around.

In Design and Technology, we will be designing and making our very own bath bombs and compete against other year groups in front of the Dragons in our Dragon's Den assembly.

In topic, we will be looking at how food and other ingredients are imported and exported around the world. We will also be looking at Fairtrade and why it is important that everyone gets a fair price.

In English, we will be writing and performing our own potion, writing instructions and writing a letter. In Maths, we will be using column methods for addition and subtraction, learning about perimeter and multiplying and dividing.

HOMEWORK

Your child will have spellings to learn each week - they will be tested on these every week. It is of even greater importance that children are given every opportunity to read, so please make time to listen to your child read every day. Reading books will be set through the online Oxford Owls website. It is really important that your child practises their times tables at home too - by the end of Year they need to know ALL tables off by heart.

Just a reminder about some useful websites for extra homework practice.

Your child has their login details in their planners. Please let us know if you have any problems logging in.
