

Alexandra Park Junior School

To learn, be happy, and achieve our best

We explore and learn
new things through
practical activities.

We ask questions and are
curious to find out more
about the world around
us.

We work in teams and
have fun.

At Alexandra Park Junior School our
vision is to foster a passion and
curiosity for science and
an understanding that science can
explain and improve the
world in which we live.

We understand
and can use
scientific
language accurately.

Our science curriculum
is broad and enriched
and links to the world
around us.

Our teachers have
good subject knowledge
and understand how to help
us do well in our
lessons.
