

What have I previously learned?

- Finding equivalent fractions to a unit fraction and a non-unit fraction.
- Converting improper fractions to mixed numbers and converting mixed numbers to improper fractions.
- Compare and order fractions greater than 1.
- Add and subtract fractions with the same denominator.

Vocabulary - Goldilocks words

Word	Definition
Equivalent	Equal in value, amount, function, meaning.
Improper fraction	A fraction in which the numerator is greater than the denominator, such as $5/4$.
Numerator	The number above the line in a fraction showing how many of the parts indicated by the denominator are taken, for example, 2 in $2/3$.
Denominator	The number below the line in a fraction, a divisor.
